

R-901

R-901 is a Metal Cutting electrode for cutting, piercing and removing all metals

Basis OF Alloys : **Metal Oxide**

CHARACTERISTICS & APPLICATION : R-901 is a Metal Cutting electrode for cutting, piercing and removing all metals. Electrode can be successfully used for cutting un wanted metal in foundry coating with a stable and forceful arc during process.

DIEMENSION, CURRENT CONDITION & PACKING DATA:

Size(mm) (Dia)	Size(inch) (Dia)	Current Condition (DC-/ AC) Amps	weight of packet (Kgs)	Weight of Case
3.15/ 3.20 X 350	1/ 8" X 14"	100-130	5	20
4.00 X 350	5/ 32" X 14"	150-180	5	20
5.00 X 350	3/ 16" X 14"	210-260	5	20

Customer packing on request.
